

AI Prompt for Nano Bana for Architecture Model 31

A stylish 20-year-old male architect wearing a modern fitted shirt and glasses stands in an office workspace filled with large architectural drawings and maps pinned on the wall. He is holding a large rolled-out architectural plan in his hands while looking down and reviewing it with focus. The desk in front of him is cluttered with additional design papers, sketches, and drawings. The background shows pinned-up maps, site plans, and completed building layouts covering the wall, creating a professional architectural studio atmosphere. The lighting is natural and soft, giving a realistic and cinematic look that highlights him as a young creative professional.
