

AI Prompt for Nano Bana for Architecture Model 18

Ultra-realistic cinematic 8K render of the uploaded image building at twilight, lights glowing warmly inside the windows. On the paved walkway in front, an architect and two site engineers stand with printed plans in hand, discussing the project. A 1:7 scale miniature model of the uploaded image sits on a portable display board they are referencing. Around them, trees lit by soft streetlamps, cars parked nearby, and a few pedestrians walking create a lively yet professional real-world evening atmosphere.
