# Your home, protected and styled

Universe Decors is a Chennai-based home protection business. We help families keep out mosquitoes, make windows and balconies safe, and control light and privacy, all with products designed to blend into the home instead of making it look like a cage. From compact flats to independent houses, we supply and install a complete range of window, balcony and door solutions built around how people in Chennai actually live.

## What we offer

**Mosquito nets**
Fine mesh, including pleated nets that fold neatly aside.

**Sliding SS mosquito nets**
Stainless steel mesh on a smooth sliding track.

**Invisible grills**
Strong steel cables that secure openings and keep the view.

**Window blinds**
PVC, roller and zebra blinds, made to measure.

**Pleated honeycomb blinds**
Insulating cell-structure blinds for light and privacy.

**Pleated dual system**
Mosquito net and honeycomb blind combined in one unit.

**Honeycomb partition doors**
Foldable pleated partitions to divide or open a room.

**Security pleated**
Lockable pleated mesh for balcony doors and openings.

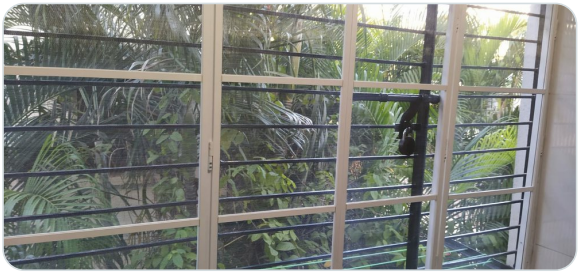

**Polycarbonate sliding**
Translucent sliding panels that turn a balcony into usable space.

## Who we serve

Our customers are flat owners and independent house owners across Chennai, typically aged 25 to 45, who want a safe, mosquito-free and good-looking home. Many are first-time homeowners setting up balconies, bedrooms and living areas for the first time. We guide each of them from measurement to installation.

# Our Products

Protection, comfort and style for every opening

## Mosquito Nets

Fine mesh fitted over windows, balcony doors and ventilators, in fixed-frame and pleated styles. Air and light come in; mosquitoes and insects stay out.

- Keeps rooms mosquito-free without closing windows
- Pleated style slides on a track and folds away neatly
- Made to measure for each opening

**Ideal for:** bedrooms, living rooms, balcony doors and large sliding windows.

## Sliding SS Mosquito Nets

A stainless steel mesh panel that glides sideways on a track, like a sliding window. Opens fully when you do not need it.

- Stainless steel mesh is sturdy and resists rust
- Smooth sliding action, no swinging into the room
- Suits wide openings and sliding windows and doors

**Ideal for:** large balcony doors, sliding windows and wide openings.

## Invisible Grills

Tensioned thin steel cables fitted across balconies, windows and duct areas. They provide safety without the heavy look of traditional grills, and keep your view open.

- Clear view, with no thick bars blocking light
- Helps protect children and pets near open balconies
- Modern look that suits flats and villas

**Ideal for:** balconies, windows and duct areas, especially on upper floors.

# Our Products

Blinds, light control and flexible space

## Window Blinds

Made-to-measure PVC, roller and zebra blinds in a choice of colours and patterns. Control sunlight, glare and privacy through the day.

- **PVC blinds:** exterior blinds for balcony coverage
- **Roller blinds:** plain or printed fabric with simple chain control
- **Zebra blinds:** shift the bands for soft light or privacy

**Ideal for:** balconies, bedrooms, living rooms, kitchens and offices.

## Pleated Honeycomb Blinds

Pleated blinds with a honeycomb cell structure. The trapped air in the cells helps cut heat and glare, and the blind can be raised or lowered to suit the time of day.

- Soften sunlight and improve privacy
- Cell structure gives insulation and a clean look
- Fold up neatly and take little space

**Ideal for:** bedrooms, living rooms and any room with strong sun or privacy needs.

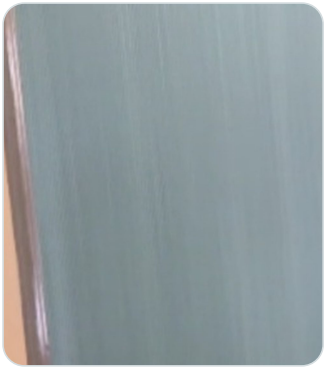

## Pleated Dual System

A combo that pairs a pleated mosquito net with a honeycomb blind in one system. One unit gives you insect protection, light control and privacy.

- Two functions in one installation
- Neat window with no extra bulky fittings
- Use only the net, only the blind, or both together

**Ideal for:** windows and doors where you want both fresh air and shade.

## Honeycomb Partition Doors

Foldable pleated partitions that divide a room and fold back when you want it open. They use the same honeycomb pleat style as our blinds.

- Separates dining, living, pooja or work areas
- Lighter and more space saving than solid doors
- Softly diffuses light while giving visual privacy

**Ideal for:** flats where you need to divide space without building walls.

## Turn your balcony into a safe, usable room

Open balconies let in mosquitoes, rain, dust and noise, and can be a worry with children around. Our balcony makeover combines **security pleated** shutters for protection and ventilation with **polycarbonate sliding** panels for daylight and shelter, all made to your balcony's exact size.

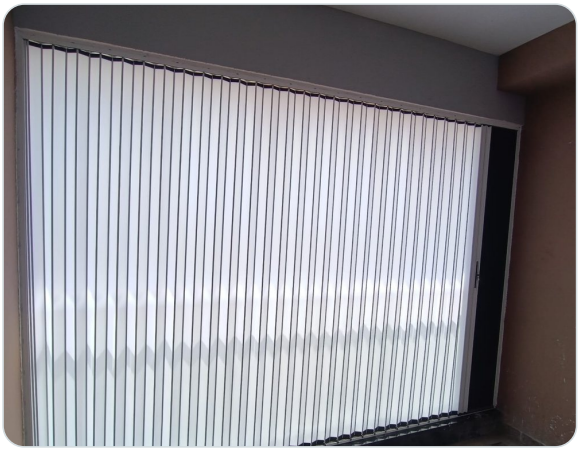

### Security Pleated

A pleated mesh shutter in a sturdy frame with a lock, made for balcony doors and openings. It folds to one side when open and closes to keep the opening protected and mosquito-free.

- Lockable, adding a layer of security to the opening
- Mesh lets air flow while keeping insects out
- Folds compactly to the side when not in use

**Ideal for:** balcony doors, terrace doors and service areas.

### Polycarbonate Sliding

Translucent sliding panels that enclose a balcony or sit-out. Daylight comes through while you gain shelter from rain splash and dust, plus more privacy.

- Brings in natural light while adding privacy
- Slides along a track and folds neatly to the side
- Makes the balcony a protected, usable space

**Ideal for:** flat balconies, sit-outs and utility areas.

# Why Universe Decors

How we work, and why customers choose us

## Our simple 5-step process

1. **Enquiry**
   Tell us what you need on call or message.
2. **Site visit**
   We visit your flat or house and understand the openings.
3. **Measurement**
   Accurate measurements for a proper fit.
4. **Quotation**
   A clear written estimate with rates and notes.
5. **Installation**
   Neat fitting and a final check with you.

## Why customers choose us

- **Made to measure** - Every product is made for your exact opening, not a generic size.
- **Looks as good as it works** - Products that blend into the home instead of spoiling it.
- **One company, many solutions** - Nets, grills, blinds, partitions and balcony systems from one source.
- **Local Chennai service** - Site visits, installation and support close to home.
- **Transparent quotations** - Clear, itemised estimates so there are no surprises.
