SMART MATERIAL SUPPLY PLATFORM FOR INTERIOR PROJECTS

INTERIOR PROJECTS

SHOULD BE ABOUT DESIGN, NOT MATERIAL STRUGGLE

Interior projects involve many materials like plywood, laminates, hardware, boards, and fittings. Managing all of these from different sources takes a lot of time and effort.

Most teams still depend on,

[01]

Phone calls

[02]

Multiple suppliers

[03]

Manual tracking

This creates confusion, delays, and cost issues. homflow is designed to simplify this entire process.

WHAT IS HOMFLOW

HOMFLOW IS A TECHNOLOGY DRIVEN MATERIAL SUPPLY PLATFORM BUILT FOR INTERIOR PROJECTS.

[01]

CENTRALIZED SYSTEM

homflow is a technology based platform designed to order and manage interior materials on a project wise basis, bringing all suppliers into one unified system.

[02]

STRUCTURED WORKFLOW

Every project follows a clear workflow from material selection to delivery, eliminating confusion and ensuring accountability at each stage.

[03]

SIMPLIFIED ORDERING

Browse, select, and order materials through an intuitive interface designed for interior professionals, reducing time spent on manual coordination.

CURRENT

CHALLENGES

[01] NO PROPER TRACKING SYSTEM

Materials are managed through scattered spreadsheets, notes, and memory. No centralized system exists to monitor inventory, orders, or project requirements.

[02] TIME WASTED IN FOLLOW UPS

Hours lost daily on phone calls, messages, and manual coordination with multiple suppliers and vendors.

[03] DELIVERY CONFUSION

Wrong materials, delayed shipments, and miscommunication lead to project delays and client dissatisfaction.

[04] NO PROJECT LEVEL TRACKING

Unable to view material status per project. No visibility into what's ordered, delivered, or pending for each project.

HOMFLOW

SOLUTION

SIMPLE STEPS

HOMFLOW ADDRESSES MATERIAL CHALLENGES WITH A STREAMLINED 5 STEP PROCESS.

[01] CREATE PROJECT & SELECT MATERIALS

Start by creating your interior project and browse our centralized catalog to select the exact materials you need.

[02] PLACE & TRACK ORDER

Submit your order through the platform and monitor real time status updates from confirmation to dispatch.

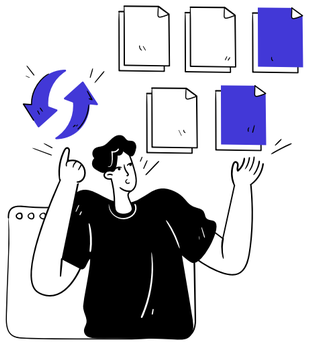

[03] DELIVERY COMPLETION

Receive materials on site with complete documentation and project level tracking for seamless handover.

PLATFORM

FEATURES

[01]

PROJECT BASED ORDERING

Organize all material orders by project for clear tracking and seamless coordination across teams.

[02]

CENTRALIZED MATERIAL ACCESS

Access all interior materials from one platform. Plywood, laminates, hardware, and more in one place.

[03]

REAL TIME ORDER TRACKING

Track every order from placement to delivery with live status updates and complete visibility.

BENEFITS

[01]

SAVES TIME WITH BETTER CONTROL

Streamline your material ordering process with centralized project management. Reduce hours spent on calls and coordination with a single unified platform.

[02]

LESS CONFUSION, FASTER EXECUTION

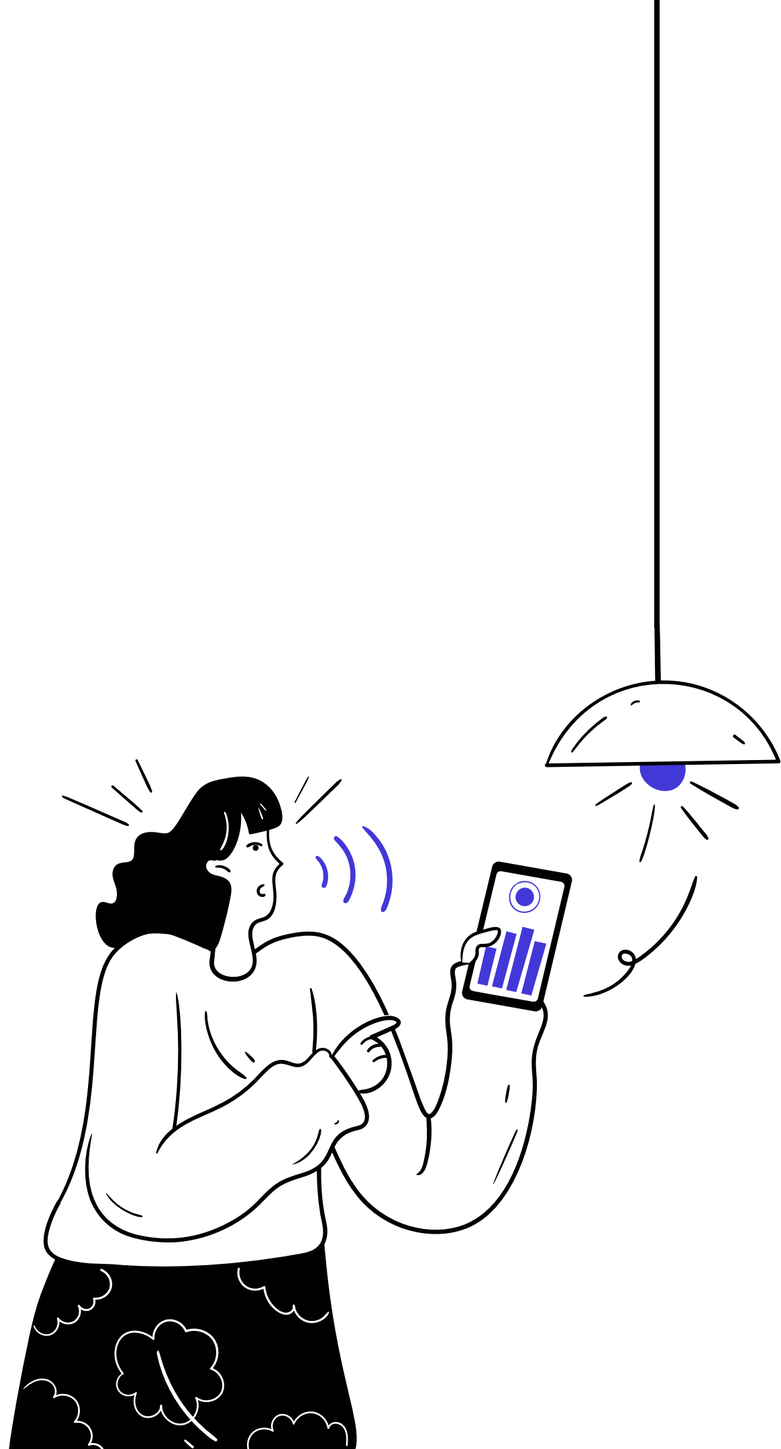

Eliminate delivery mix ups and tracking errors. Real time order visibility ensures your projects stay on schedule with accurate material deliveries.

[03]

PROFESSIONAL WORKFLOW

Elevate your interior business with structured processes. Present a polished, organized approach to clients while managing materials effortlessly.
